**3. DISCUSSION ITEMS**

**a. Water treatment and distribution processes and controls.**

The Committee discussed the recent water quality in the Nacimiento Reservoir and the challenges we are faced with, specifically organics. The resulting citation from the Division of Drinking Water for exceeding the average quarterly threshold for haloacetic acids was also discussed. The Committee listed immediate actions, medium term actions, and longer-term actions to address the elevated haloacetic acids and water quality that will be communicated to the Board and the DDW. The notice to customers was reviewed and will be placed on our website and at the front counter.

**b. Water conservation.**

The Committee briefly discussed the State of California's plan to reduce household indoor water demand to 50-gallons per capita per day.

**4. ADJOURNMENT**

The meeting was adjourned at approximately 7:16 p.m.
