Independent Auditor's Report

To the Management of
Heritage Ranch Community Services District
Paso Robles, California 93446

Report on the Financial Statements

I have audited the accompanying financial statements of the business-type activities of the Heritage Ranch Community Services District (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position the business-type activities of the District, as of June 30, 2016, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT

(Continued)

Emphasis of Matter

Implementation of New Accounting Standards

As disclosed in Note 1 to the financial statements, the District implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, during the fiscal year 2016.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages *i* through *viii*, and the Schedule of Funding Progress, Schedule of the District's Proportionate Share of the Net Pension Liability, and Schedule of Contributions, listed on pages 25 through 27, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Heritage Ranch Community Services District basic financial statements. The combining financial statement schedules listed in the table of contents are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

HERITAGE RANCH COMMUNITY SERVICES DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
Fiscal Year Ending June 30, 2016

The Management Discussion and Analysis of the Heritage Ranch Community Services District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should review the discussion and analysis in conjunction with the basic financial statements as well as the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2016 are as follows:

- Total net position decreased by \$158,963 which represents a 2.1% decrease. This is an increase over the prior fiscal year when net position decreased by 1.2%.
- Reimbursement for a grant funded water project that was completed in fiscal year 2016 did not occur due to a requested grant amendment increasing the total grant amount. Grant reimbursement funds totaling \$184,681 are expected in fiscal year 2017.
- The District incurred a deficit before contributions and transfers of \$253,746. This is an increase over the prior fiscal year, when there was a deficit of \$189,666 before contributions and transfers. This main reasons for this deficit is the large reduction in water charges due to the ongoing drought and statewide restrictions combined with high fixed operating costs along with increasing regulatory cost for both the water and sewer funds.
- The District's enterprise business-type activities operating revenues decreased by \$6,139 or less than 1%, while expenses increased by 66,483 or 3.23%. This is better than the prior fiscal years when operating revenues decreased \$158,550 or 10.51%, while expenses increased by \$269,064 or 15.01%.
- Water and sewer connection revenue increased by \$6,697 or 7.63%. This is a decrease from the previous fiscal year as most vacant parcels have now purchased their water and sewer connections.
- A new audit requirement of providing a cost of future pension liability is included in the fiscal year 2016 audit. This increased liabilities by \$615,781.
- Non-operating income increased by \$8,542 or 1.64% from the 2015 fiscal year.
- Capital assets (less depreciation) decreased by \$86,530 or 1.13% as a result of less major water/sewer capital improvement projects during the fiscal year 2016.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. These statements then proceed to provide an increasingly detailed look at specific financial activities. This annual report consists of two parts – management’s discussion and analysis (this section) and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

- The first statements are the *government-wide financial statements* that provide both long-term and short-term information about the District’s overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the government, reporting the District’s operations in more detail than the *government-wide statements*.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The following explains the structure and content of each of the statements.

Government-wide and fund financial statements

The government-wide financial statement (i.e. the statements of net assets and activities) reports information on all of the activities of the District. Business-type activities, which rely to a significant extent on fees and charges for support, are the only type of statement reported by the Heritage Ranch Community Services District.

The government-wide statement reports the District’s net assets and how they have changed. Net assets are the difference between the District’s assets and liabilities and are one of the ways to measure the District’s financial health or position.

- Over time, increases or decreases in the District’s net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional non-financial factors, such as increases in the District’s customer base, facility condition, and other factors.

The fund financial statements provide more detailed information about the District’s most significant funds – not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

The District's proprietary funds are the water fund, sewer fund, solid waste fund, and the general fund.

- **Water Fund.** This fund provides for the operation, maintenance, and improvements to the District's water system. The system includes the two million gallon per day water treatment plant, plate settler tanks, five storage tanks, six pump stations, and over sixteen miles of pipeline. As of June 30, 2016, there were 2,087 approved water connections, of these 1,846 are active. The water fund receives revenue from user fees, standby revenue, property taxes, and interest income.
- **Sewer Fund.** This fund provides for the operation, maintenance, and improvements to the District's sewer system. The system includes ten lift stations, one pump station, two initial treatment ponds, two secondary treatment areas and many miles of pipeline. As of June 30, 2016, there were 1,701 active sewer connections. The sewer fund receives revenue from user fees, standby revenue, property taxes, and interest income.
- **Solid Waste Fund.** This fund administers and acts as the franchiser for the solid waste agreement. The fund supports the Franchisee, San Miguel Garbage Company, in customer issues and the contractual agreement for solid waste removal at Heritage Ranch. The solid waste fund receives revenue from 6% of all solid waste fees.

| Total Net Position | \$8,344,539 | \$7,380,550 | (10.46%) |

Total net position decreased between fiscal years 2015 and 2016, by 10.46% to \$7,380,550. This decrease is primarily due to a new accounting recording of pension liability. All of the District's net assets are restricted either by the purposes they can be used for or are invested in capital assets.

Enterprise Activities

Operating revenues decreased in fiscal year 2016 by 0.45%. Total expenses increased by 3.23%. Non-Operating revenues increased by 1.64%. Total net position decreased by \$158,963. The water fund continues to experience a decrease in revenue as the result of less water sales due to the ongoing drought reductions with ongoing high operating expense. Both the surface water treatment and sewer NPDES discharge regulatory compliance high cost continues to impact these funds. A rate increase is needed for both the water and sewer funds along with solutions for lower operating costs.

| Net capital assets | \$7,688,196 | \$7,601,666 | (1.13%) |

The 2016 fiscal year included two major capital projects and equipment purchases and many other smaller projects and equipment purchases. The following is a summary of the major capital improvements and other District funded projects during the year:

- \$202,650 - emergency water turnout and pipeline between SLO County's Nacimiento Water Project and our water pump station #1. Project was partially grant funded but the final grant reimbursement has not been received from the DWR as of fiscal year end.
- \$126,448 - new pumps and piping at the pond 2 effluent station.

The District's fiscal year 2017 capital budget projects spending a total of \$295,000 for capital projects and equipment purchases. The major project is a sewer treatment and recycled water master plan. This project is partially grant funded. Other smaller projects for the year include a road valve improvements and SCADA upgrades at the WTP. Existing capital reserves will be used to fund these other projects. More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

Long-Term Debt

The District obtained a \$2,179,398 loan from the State of California Department of Water Resources under the Safe Drinking Water Bond Law of 1984 for the construction of a water treatment plant and modifications to the well and booster pumps. The loan is payable over 35 years with a maturity date of 2029, and bears interest at 3.1775% per annum. The June 30, 2016, principal balance is \$1,096,607.

The District obtained a \$984,090 loan to finance water treatment plant improvements that were completed in FYE 2015. The debt is through a Safe Drinking Water State Revolving Fund. The loan is payable over 20 years with a maturity date of 2036, and bears interest at 1.788% per annum. The June 30, 2016, principal balance is \$963,431. More detailed information about the District’s long-term liabilities is presented in Note 6 of the basic financial statements.

Figure 3 Water Treatment Plan Debt

Current Financial Issues and Concerns

The District is financially stable despite increasing costs, limited/reducing revenues, and new regulatory requirements. The District remains dependent on both property taxes and standby assessments to fund the water/sewer operations. Cost increases are projected for labor, utilities, maintenance, and supplies in future years. The District must increase its water and sewer charges and lower operating costs in fiscal year 2017 to meet future operating and capital fund stability. The District currently has \$4,050,627 in long-term principal and interest payments due on two water treatment plant construction and improvement loans. This debt must be closely monitored before further debt is incurred.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Heritage Ranch Community Services District (District) is a multi-purpose special district and began operations on February 26, 1990. The District is a political subdivision of the State of California and operates under the direction of a board of directors who are elected by the residents of Heritage Ranch. The District provides water, wastewater, solid waste services, and recreational services.

The District complies with U.S. Generally Accepted Accounting Principles (GAAP) and all relevant U.S. Governmental Accounting Standards Board (GASB) pronouncements. These technical pronouncements establish criteria for determining the organization's activities and functions that are included in the financial statements of a governmental unit. The proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails.

Reporting Entity

For financial reporting purposes, the District would include in this report all funds and account groups of all agencies and boards that are controlled by, or dependent upon, the District's legislative body. The criteria of control is determined on the basis of financial accountability, imposition of will, and financial benefit or burden.

There are no component units included in this report which meet the criteria of GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39.

The District is a member of the Special District Risk Management Authority Joint Powers Agency, which was organized for the purpose of providing general liability, workers compensation, automobile, errors and omissions, and property loss insurance coverage to special districts. This organization is financed through premium charges to each member. This organization does not meet the aforementioned reporting entity criteria and therefore is not included in the accompanying financial statements.

Proprietary Fund Financial Statements

The accounts of the District are organized into proprietary/enterprise funds. Enterprise funds use the economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and cash flows. All assets and liabilities associated with an enterprise fund's activities are included on the balance sheet.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting

The enterprise funds of the District are accounted for using the accrual basis of accounting. Revenues, including user fees and service charges, are recognized when earned, and expenses are recognized when incurred.

Budgets and Budgetary Accounting

An annual budget is adopted by the Board of Directors at the start of each fiscal year. Any changes or revisions to that budget throughout the year must be approved by the Board of Directors.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating Revenues and Expenses

Operating revenues, such as charges for services (water and wastewater fees) result from exchange transactions associated with the principal activities of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as property taxes and investment income, result from non-exchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) equal value in exchange.

Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All expenses not meeting this definition are reported as non-operating expenses.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Accounts Receivable

The District did not experience any significant bad debt losses and therefore a zero provision has been made for doubtful accounts. Accounts receivable is shown at full value.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid expenses.

Capital Assets

All capital assets are valued at historical cost or fair value if actual costs are not available. Other donated capital assets are valued at their estimated fair market value on the date received. The capitalization threshold for all capital assets is \$5,000. Depreciation has been provided over the estimated useful life of the asset using the straight-line method. Estimated useful lives range from 5 to 100 years.

Inventory

The inventories maintained by the water utility consist primarily of water pipe, valves, and fittings. Inventory is valued at cost, determined on a first-in, first-out basis.

Property Taxes

The County of San Luis Obispo bills and collects property taxes for the District. Tax revenues are recognized by the District in the year levied.

Compensated Absences

Accumulated unpaid employee vacation and sick leave benefits are recognized as liabilities of the District. The amounts are included in current liabilities under accruals.

Annual Appropriations Limit

The District is exempt from the annual appropriations limit required by Senate Bill 813 (Chapter 1025, Statutes of 1987), in accordance with California Constitution Article XIII B. This exemption is based on a tax rate not greater than 12.5 cents per \$100 of the assessed valuation in 1978 when the District was operated as a San Luis Obispo County Service Area.

Interfund Transactions

Transactions that constitute a reimbursement from one fund to another are recorded as an expense in the reimbursing fund and an expense reduction in the fund being reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or non-routine transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property Taxes

The County of San Luis Obispo bills and collects property taxes for the District. The County charges the District for these services. Tax revenues are recognized by the District in the year received.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Effect of New Governmental Accounting Standards Board (GASB) Pronouncements

Effective This Fiscal Year:

GASB Statement #68 – In June 2012, GASB issued Statement #68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement #27*. This Statement replaces the requirements of Statements #27 and #50 related to pension plans that are administered through trust or equivalent arrangements. The requirements of Statements #27 and #50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014. The District implemented this statement effective July 1, 2015.

NOTE 2: CASH AND CASH EQUIVALENTS

The value of cash and cash equivalents at June 30, 2016 is summarized as follows:

| | | |
|--|----|-----------|
| Cash on hand and in banks | \$ | 268,500 |
| Cash and investments with the Local Agency Investment Fund (LAIF) | | 2,192,145 |
| Total cash and cash equivalents | \$ | 2,460,645 |

The California Government Code requires California banks and savings and loan associations to secure a district's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of a district's deposits. California law also allows financial institutions to secure district deposits by pledging first trust deed mortgage notes having a value of 150% of a district's total deposits. The District may waive collateral requirements for deposits which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC).

Credit Risk, Carrying Amount, and Market Value

Cash is classified in three categories of credit risk as follows:

- Category 1 - insured or collateralized with securities held by the entity or by its agent in the entity's name;
- Category 2 - collateralized with securities held by the pledging financial institution's trust department or agent in the entity's name; and
- Category 3 - uncollateralized.

Investments in pools managed by other governments (LAIF) or in mutual funds are not required to be categorized.

At June 30, 2016, the carrying amount of the District's cash deposits was \$268,500. The bank's balance was \$266,221. This difference is due to the normal deposits in transit and outstanding checks. District cash deposits by category as of June 30, 2016, are as follows:

| | | <u>Category</u> | | | <u>Bank</u> | <u>Carrying</u> |
|---------------|-------------------|-----------------|---------------|----|----------------|-------------------|
| | <u>1</u> | <u>2</u> | <u>3</u> | | <u>Balance</u> | <u>Amount</u> |
| Bank accounts | \$ <u>266,221</u> | \$ <u>-0-</u> | \$ <u>-0-</u> | \$ | <u>266,221</u> | \$ <u>268,500</u> |

NOTE 3: INVESTMENTS

Investments Authorized by the District's Investment Policy

The District is authorized to invest in the following institutions:

1. County pooled funds (California Government Code Section 61730)
2. The Local Agency Investment Fund (LAIF) created by the California State Treasury (California Government Code Section 16429.1)
3. One or more FDIC insurance banks and/or savings and loan associations that are designated as District depositories by resolution of the Board of Directors (California Government Code Section 61737.02)
4. Such other financial institutions or securities that may be designated by the Board of Directors from time to time in compliance with California and Federal law.

The District's investment policy does contain specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk.

Investments Authorized by Debt Agreements

Investment of debt proceeds held by bond trustee and governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. The table below identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

| <u>Authorized Investment Type</u> | <u>Maximum Maturity</u> |
|-----------------------------------|-------------------------|
| Money Market Mutual Funds | N/A |

Disclosure Relating to Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The weighted average maturity of the investment contained in the LAIF investment pool is approximately 9 months.

Information about the sensitivity of the fair values of the District's investment to market interest rate fluctuations is provided by the following table that shows the maturity date of each investment:

| | | <u>Maturity Date</u> |
|-----------------------|---------------------|---------------------------|
| State investment pool | \$ <u>2,192,145</u> | 9 months average maturity |

NOTE 3: INVESTMENTS (continued)

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the entity's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized costs basis.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. LAIF does not have a rating provided by a nationally recognized statistical rating organization.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by the state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit).

The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgages notes having a value of 150% of the secured public deposits.

The custodial risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

NOTE 3: INVESTMENTS (continued)

Concentration of Risk

The District's investment policy does not contain various limitations on the amounts that can be invested in any one governmental agency or non-governmental issuer as stipulated by the California Government Code. As of June 30, 2016, the District's deposit portfolio with government agencies, LAIF, was 100%.

NOTE 5: RESTRICTED ASSETS

Certain proceeds of the enterprise funds are classified as restricted on the statement of net position because their uses are limited. For the fiscal year ended June 30, 2016, the following amounts are restricted:

| | |
|------------------------------------|---------------------|
| Cash with fiscal agent | \$ 112,280 |
| Restricted by enabling legislation | <u>2,348,365</u> |
| Total restricted | \$ <u>2,460,645</u> |

The monies with the fiscal agent are limited by the note payable agreement with the Department of Water Resources. The additional amounts were restricted by resolution.

NOTE 6: LONG-TERM DEBT

Long term debt consisted of the following:

The District obtained a \$2,179,398 loan from the State of California – Department of Water Resources (DWR) in 1994, under the Safe Drinking Water Bond Law of 1984, for the construction of a water treatment plant and modifications to its well and booster. The loan is payable over 35 years and bears interest at 3.1775% annually. In October of 1994 the District began making semi-annual payments of principal and interest. Remaining semi-annual principal and interest payments of \$51,814 will be made in October and April through fiscal year 2029.

NOTE 7: NET POSITION

The business-type activity fund financial statements utilize a net position presentation. Net position is categorized as invested capital assets (net of related debt), restricted, and unrestricted.

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.

Restricted Net Position – This category presents external restrictions imposed by creditors, grantors, contributors, laws, or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – This category represents net assets of the District, not restricted for any project or other purpose.

NOTE 9: DEFINED BENEFIT PENSION PLAN

A. General Information about the Pension Plans

Plan Descriptions - All qualified regular and introductory employees of the District participate in a cost-sharing multiple employer defined benefit pension plans, administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided - CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law. New members employed after January 1, 2013 are designated as PEPRA Miscellaneous and are subject to the provisions of California Government Code 7522 et seq. and AB 197. All other members employed prior to January 1, 2013 are designated as Miscellaneous First Tier Plan or Miscellaneous Second Tier Plan.

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2014, depending on the plan, the active employee contribution rate ranges between 6.25% and 8% of annual pay, and the employer's contribution rate ranges between 6.237% and 9.671% of annual payroll.

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2016, the District reported net pension liabilities of \$615,781 for its proportionate shares of the net pension liability of the Plan.

HERITAGE RANCH COMMUNITY SERVICES DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

NOTE 9: DEFINED BENEFIT PENSION PLAN (continued)

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2015, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2015 was as follows:

| | |
|----------------------------|---------------|
| | Amount |
| Proportion – June 30, 2015 | \$ 615,781 |

For the year ended June 30, 2016, the District recognized pension expense of \$93,706. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows for Resources | Deferred Inflows of Resources |
|--|---------------------------------------|-------------------------------------|
| Pension contributions subsequent to measurement date | \$ 0 | \$ 0 |
| Differences between actual and expected experience | 0 | 87,665 |
| Change in employer's proportion and differences between the employer's contributions and employer's proportionate share of contributions | 0 | 0 |
| Total | \$ 0 | \$ 87,665 |

\$0 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

| Year Ended June 30 | Deferred Outflows/(Inflows) for Resources |
|--------------------|---|
| 2017 | \$ (29,985) |
| 2018 | (29,603) |

NOTE 9: DEFINED BENEFIT PENSION PLAN (continued)

C. Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2015 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2014 total pension liability. Both the June 30, 2014 total pension liability and the June 30, 2015 total pension liability were based on the following actuarial assumptions:

| | |
|----------------------------------|---|
| Actuarial Cost Method: | Entry Age Normal in accordance with the requirements of GASB Statement #68 |
| Actuarial Assumptions: | |
| Discount Rate | 7.65% |
| Inflation | 2.75% |
| Salary Increases | Varies by Entry Age and Service |
| Investment Rate of Return | 7.5% Net of Pension Plan Investment and Administration Expenses; Includes Inflation |
| Mortality Rate Table | Derived using CalPERS' Membership Data for all Funds |
| Post Retirement Benefit Increase | Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter |

All other actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2011, including updates to salary increase, mortality and retirement rates.

D. Discount Rate

The discount rate used to measure the total pension liability was 7.50%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.50 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.50 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

NOTE 9: DEFINED BENEFIT PENSION PLAN (continued)

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

F. Post-employment Benefits

In addition to pension benefits, the District provides post-retirement health care benefits through the California Public Employees' Retirement System. Employees who retire on or after attaining age 50 and are vested, are eligible for District paid health insurance.

For employees hired prior to February 1, 2006, the District's financial obligation is to pay 100% of the cost of coverage for the eligible retiree and any eligible dependents. For employees hired on or after February 1, 2006, the District's contribution percentage is based on the employee's years of CalPERS eligible service at retirement starting at 50% for employees with 10 years increasing by 5% per year of service up to 100%.

On July 1, 2015, the District conducted an actuarial valuation based on the Alternative Measurement Method to determine the required funding for this health care benefits program.

The actuarial accrued liability for the District's retiree health benefits program on this measurement date was determined to be \$1,112,465. This value is based on a discount rate of 7.28% and an inflation rate of 2.75%. The District's funding policy is to fund 100% of the annual required contribution determined through the California Employers' Retiree Benefit Trust (CERBT). Based on this valuation, the District contributed \$61,764 to an irrevocable trust to meet the current obligations of this program and to fully fund the annual liability. Currently, eight retired employees are receiving 100% paid health care benefits totaling \$4,484 per month.

Below are the required disclosures for this plan:

NOTE 10: PRIOR PERIOD ADJUSTMENT

A total prior period adjustment of \$703,446 was made to decrease the governmental activities' beginning net position. The adjustment was made to reflect the prior period costs related to the implementation of the net pension liability. The restatement of beginning position is summarized as follows:

| | | |

NOTE 11: SUBSEQUENT EVENTS

The District has evaluated events subsequent to June 30, 2016, to assess the need for potential recognition or disclosures in the financial statements. Such events were evaluated through October 2, 2016, the date these financial statements were available to be issued. Based upon this evaluation, it was determined that no other subsequent events occurred that require recognition or additional disclosure in the financial statements.
